Annual Benefit 2024

 **Nation
Outside**
The Voice of the Formerly Incarcerated

Nation Outside

Nation Outside was officially formed in 2014 by a group of formerly incarcerated individuals and allies who recognized the urgent need for systemic change. Our organization embodies the principle of "For Us! By Us! With Us!" We are driven by the experiences of our founders, who faced addiction, trauma, and systemic barriers. Together, we have created an inclusive community dedicated to breaking the cycle of incarceration. With over 7,000 members across Michigan, we strive to amplify the voices of the formerly incarcerated and create pathways to reintegration and success.

Trauma Informed Peer Led Reentry

TIPLR is a unique program that combines the power of lived experience and trauma-informed coaching to help returning citizens navigate barriers to reentry and to prevent recidivism.

TIPLR stands as a testament to the collective commitment of Nation Outside to foster positive change and support individuals on their journey toward reintegration. TIPLR is paving the way for safer communities where every individual has the opportunity to thrive.

TIPLR Testimonial

“As many times as I've **wanted to give up** and not answer my phone, they (**the TIPLR Team**) **have still remained consistent with a lot of support**. They have made me feel very **welcomed and not judged**, which I experienced so many times before.

“It has been a little under a year since I have joined **Nation Outside**. I had reached rock bottom and I had absolutely no help. or any support. **Within a year I am about to be discharged off probation.**

“They have helped me **bring out strengths that I never knew that I had**. They have helped me accomplish so much in such little time, including attending church on a regular basis, getting **employment** for the first time in four years, **starting my own business**, which is the cleaning service, attending informative meetings, and speaking in front of large groups, and just **overall really believing in myself.**”
